

Quality Criteria of Inclusive Music Lessons in Primary School - Transfer of Results - II

Service Learning

Passing on the results of the research project in seminars for music students training to be primary school teachers

1. Objectives:

Development and promotion of the students' competence in lesson planning for inclusive music lessons and music lessons in standard classes

2. Procedure:

Theoretical Foundation of the Seminars

- Discussion of the results of the research project
- Development of specific teaching design measures based on the empirical results of the research project

Practical Application in Teaching Reality

- Application of the obtained measures in a primary school class
- Reflection on the experience
